

# AVI AGARWAL

Born in a country with rich culture & heritage, I have grown up encircled with diverse people & thoughts. With a deep passion for design, I have developed a strong belief in the power of functionality, sustainability, and aesthetics to shape our built environment. Throughout my studies and professional experience, I have gained a broad understanding of the field. I value the importance of considering a space's social and cultural context, as well as the technical and formal aspects of design. With a commitment to creating meaningful and functional spaces, I am excited to continue learning and growing as a designer.
